

ProSilMax™ Silica/Glass Blended Fabric with Wire Insert Tadpole Tape with Rope or Wire Mesh Core
1350°F / 732°C TadpoleTape™ High Temperature & Heat Resistant

Made from our proprietary blended silica/fiberglass heavy duty fabric, this is a soft and resilient gasket material for effective sealing on metal flanges and where limited bolting force is available – and where doors and other closures rest on the bulb.

The fabric has a wire insert for additional strength and dimensional stability.

Outperforms standard fiberglass tadpole tapes in higher temperature applications. Remains soft and workable at temperatures where fiberglass tapes become brittle.

Standard Rolls of 50 and 100 feet. For By-The-Foot pricing add 25% to price shown. **This product has a \$200 minimum order value.**

1300°F / 704°C continuous rating: Highly flexible and conformable.

TadpoleTape™ Very High Temperature & Heat Resistant ProSilMax™ Blended Silica/Glass with Rope Core
