

EPDM Ring & Fullface Gaskets: 150#

Good weathering, ozone and acid resistance

Continuous operating temperature range 110° - 120° C

Compatibility with fireproof hydraulic fluids, ketones, hot and cold water, and alkalis

Unsatisfactory compatibility with most oils, gasoline, kerosene, aromatic and aliphatic hydrocarbons, halogenated solvents, and concentrated acids

EPDM Gaskets: 150#							
Part Number	Pipe Size			Ring Gasket		Full Face Gasket

For the "X" value in the part number: use "1" to specify 1/16" (.0625") / 1.59mm;
use "2" to specify 1/8" (.125") / 3.18mm

For the "Y" value in the part number: use "RG" to specify Ring Gasket
use "FF" to specify Full Face Gasket

For the "Z" value in the part number: use "N" to specify New Size
use "O" to specify Old Size

New or Old Standard Sizes – Same Price.
Unless otherwise specified, Old Standard sizes will be provided

Less 5% - 100 pieces and up. Less 7% - 500 pieces and up.
