

DeltaMax™ Aero Grade Cork Sheet

135°C / 275°F

Premium cork sheet is used both as an acoustic and thermal insulator.

Available with adhesive options applied to one side. Natural rubber, acrylic or silicone.

Available in thicknesses of 1/8" through 1".

Density of 448 to 512 kg/m³.

Tensile strength 1.5 MPa.

Specific heat 0.93 KJ/Kg/Kelvin

Easily cut into shapes.
