

Tubing Group

Polyurethane Tubing

Transparent, flexible, resilient, abrasion and impact resistant tubing.

Very abrasion resistant.

Oil resistant tubing used for a wide range of applications.

Temperature range -95°F to 185°F (-70°C to 85°C)

Construction: Ester based polyurethane compound will handle oils, greases and fuels.

Standard lengths of 100 feet. 50 foot coils available for sizes 1/2" and up.

Working pressure is rated at 70F

Sold in Full Coils Only

Tubing Group

Polyurethane Reinforced Tubing

Transparent, flexible, resilient, abrasion and impact resistant tubing with a braid reinforcement located mid-wall for increased pressure usage.

Very abrasion resistant.

Oil resistant tubing used for a wide range of applications.

Temperature range -95°F to 185°F (-70°C to 85°C)

Construction: Ester based polyurethane compound will handle oils, greases and fuels.

Standard lengths of 100 feet.
