

Tubing Group

Clear PVC Braided Tubing - FDA & NSF-51 - Flexible

Lightweight, non-marking, flexible standard wall thickness, clear, reinforced tubing for a wide range of applications including food, beverage, air and liquids.

FDA and NSF-51 grade.

Smooth inner wall allows excellent flow characteristics.

Temperature range 25°F to 150°F (-3°C to 65°C)

Construction: Clear reinforced PVC with blue tint. Spiral polyester yarns for reinforcement.

Standard coils are 300 feet up to size 1". Larger sizes the standard length is 100 feet.
